Upright pianos

Tribute

A generously sized upright piano for developing pianists, crafted to inspire and to bring emotion to one's first nocturnes. The Tribute model has been designed to endure and to faithfully accompany aspiring pianists.

Tribute

TRIBUTE123-BLK

Upright Piano – Black Glossy – Height 123 cm

The touch sensitivity, based on a subtle balance between precision and gentleness, provides optimal playing comfort. Warm bass tones and clear treble enrich the singing middle register with a well-balanced harmonic palette, the hallmark sound of Pleyel pianos.

La série **P**

While countless Pleyel pianos have been immensely successful over the two centuries of the French manufacturer's existence, the P models remain unquestionably among its greatest achievements. This earned the P131 the nickname "King of Uprights".

P120

P120-BLK

Upright Piano - Black Glossy - Height 120 cm

Designed at Pleyel in France and manufactured in our Pleyel Ningbo factory, the P120, the first model in our range, makes no sacrifice to offer Pleyel quality at a price that is unmatched in its category. A worthy representative of a centuries-old heritage, this model offers our legendary silky, balanced sound, so dear to Pleyel lovers, thanks to first-class materials and meticulous quality control throughout the manufacturing process.

Our new P120 model features a careful design. Its sensitive touch and exceptional sound make it a perfect instrument for the demanding musician. It is the ideal instrument for unleashing musical creativity, allowing the full range of emotions to be expressed and becoming the true musical ally that reveals talent with elegance and subtlety.

P124

P124-WHT

Upright Piano - White Glossy - Height 124 cm

The glossy white lacquer on the P124 is stunningly beautiful. The brightness of the lacquer accentuates the details and delicate curves of the piano, creating a striking contrast with the black and white keys of the instrument. The finish gives an impression of luxury and elegance, making the P124 a true work of art.

P124-BLK

Upright Piano - Black Glossy - Height 124 cm

The sensitivity of the touch, based on balance and precision, allows the most demanding pianists to access the sensations of an exceptional piano. Ample and warm basses, fine and luminous highs accompany with their harmonic richness the fruity song of the midrange, typical of Pleyel. This piano is for musicians who want to choose a top-of-the-line instrument in a cabinet with refined woodwork. It combines pianistic and aesthetic qualities.

P124 Art Déco

P124-MAC

Upright Piano - Black and Macassar Ebony Glossy - Height 124 cm

The brightness of the lacquer accentuates the details and delicate P124's Macassar Ebony finish is simply beautiful. This exotic wood species has unique and elegant patterns, ranging from dark brown to deep black, which create a subtle but striking marbling effect. The smooth polished surface of the wood reflects the light in a subtle way, adding depth and interest to the already rich texture of the material. This finish lends a sophisticated and timeless look to the instrument, making the Pleyel P124 a true gem for any living space.

⌘124 Trocadéro

© 2020 Pleyel - stock.adobe.com

P124T-BLK

Upright Piano – Trocadéro Black Glossy – Height 124cm

Designed and assembled in France, the P124 Trocadéro has an Art-Deco inspired style, with an ornamental lyre that enhances its elegance. It has all the musical qualities of a contemporary Pleyel, with a richness of timbre ranging from full deep bass to the fine distinguished treble. The precision of touch provided by a Pleyel action offers pianists of all levels a wide range of nuances.

№124 Art Nouveau

P124N-FMA

Upright Piano- Satin Mahogany - Height 124 cm

Designed and assembled in France, this Art Nouveau-style piano is a replica of the famous No. 9, Pleyel's best-seller of the 1930s. It carries all the musical qualities of a contemporary Pleyel piano, with a clear and luminous tone. Its flamed mahogany cabinet, finished in satin polish, pays tribute to the Belle Époque. Two centuries of tradition are thus brought together in this unique instrument.

P131-BLK

Upright Piano – Black Glossy - Height 131 cm

All of Pleyel's musicality is expressed in this beautiful instrument, which is derived from the famous P model, and whose qualities are similar to those of a grand piano: powerful bass, very clear midrange, delicate treble, expressive power, subtle nuances, and dynamic touch. This piano is suitable for the demanding amateur as well as the professional.

Grand pianos

La série 

The Pleyel House is also dedicated to the making of grand pianos.

Through a rigorous selection of the finest materials and craftsmanship rooted in tradition, these instruments deliver optimal performance while remaining true to the brand's unique sound identity.

⌘170

P170-BLK

Baby Grand Piano - Black Glossy - Length 170 cm

This baby grand piano is in the great tradition of the F models which made Pleyel famous throughout the world. With its refined richness of tone, a Pleyel signature, the sound is exceptionally dynamic thanks to a soundboard with original proportions. Its great sensitivity to nuances, served by a very precise touch, allows the exploration of the entire piano repertoire.

ƒ170 Walkyrie

La série ƒ

F170-BLK Walkyrie

Baby Grand Piano developed in France, assembled in Germany at Bayreuth in 2021. Glossy Black Lacquer. Length 170cm

The variety of harmonic nuances and the sonic power of this great grand piano ensure uncompromising musical pleasure. This high-quality instrument is a perfect combination of age-old know-how and modern technology.

Transform your piano
into a high-end
connected loudspeaker

Install the system in just a few minutes

Le Magistral is an audio amplification system that transforms your piano, new or old, whether in playing condition or not, into a top-of-the-range loudspeaker. Thanks to Le Magistral, the piano's soundboard perfectly reproduces the natural sound and harmonic richness of instruments and voices. The adjustable bracket mounting system allows you to position and fix the transducers to the soundboard bars on the back of your piano, without the need to drill any holes. These brackets are designed to fit the vast majority of upright pianos, new or old, of all brands.

Stream your music with exceptional sound quality

So you can play your favourite music with exceptional listening quality, or play the piano in complete immersion as part of an orchestra or band.

Become the soloist of the orchestra

Practice, progress and play on interactive scores thanks to the many accompaniment applications available on Apple Store or Google Play, such as Metronaut.

You can also amplify the sounds of your silent system if your piano is so equipped. You can enjoy all the benefits of a traditional loudspeaker by connecting via Bluetooth or by cable thanks to the USB and AUX sockets, while benefiting from exceptional depth and clarity of sound.

DISCOVER

ADSILENT

All P-Series uprights and grand pianos can be equipped with an optional Adsilent system.

Play in peace and quiet at any time of the day or night, without disturbing your surroundings or your neighborhood.

When using your Adsilent mute system, you keep the touch of your piano. For grand pianos, we offer the version with the LetOff Expansion System (LES): This additional system adapts the mechanical regulation for use with the mute rail, only when the mute rail is activated. In normal operation, your grand piano remains completely unchanged - as if it had no mute system.
