PLEXEL Sculpturaudio

REFERE

Artistic expression, a Pleyel tradition

The House of Pleyel opens the doors to a new acoustic experience. With its unique design inspired by Cubism, the Pleyel Sculpturaudio plunges you into a new visual and sonic ambience.

The guitar's soundboard is magically transformed into a magnificent loudspeaker. In this way, Sculpturaudio becomes a loudspeaker connected to your smartphone or tablet to listen to your favorite music.
